

# Battery Holster

The DT Research Battery Holster (ACC-001-36) is designed to be a charging case as well as a portable power bank while three fully-charged DR202 batteries are stored inside.

With multiple power outputs, the Battery Holster supports charging DT Research Tablets and supplies power to peripherals while mounted on a rolling cart.

## Features

- Durable aluminum case, holds three DR202 batteries
- Supplies power to up to three devices at the same time
- 12V, 15V and 19V DC-outputs; power for multiple peripherals (e.g., Zebra mobile printer, Welch Allyn vital sign monitor, and the DT Research products)
- Built-in and external LED indicators to display the battery power status
- Bracket to mount on the medical rolling cart
- 3 cables included for connecting to peripherals
